Model Multi Couches

```
Running on: cpu
Detected labels: ['Brevets', 'Contentieux', 'Extension territoriale', 'Marques_DM', 'Noms de domaine et Surveillance']
Some weights of CamembertForSequenceClassification were not initialized from the model checkpoint at camembert-base and are newly initialized: ['classifier.dense.bias', 'classifier.dense.weight', 'classifier.out_proj.bias', 'classifier.out_proj.weight']
You should probably TRAIN this model on a down-stream task to be able to use it for predictions and inference.
